

Architectural Design Project Rubric

		4 = Excellent	3 = Good	2 = Approaching	1 = Minimally Evident	0 = Not present
1- Cover Page	-Had correctly formatted title block present -Contained South Elevation -Contained Table of Contents					
2- Presentation Floor Plan	-Doors and windows present -Rooms Labeled with General Dimensions -Blocks used created a clear understanding of layout -Wall cavities hatched					
3- Roof Plan	-Roof plan worked with floor plan design and elevations -Proper drainage was possible					
4- Framing Plan	-Dimensions provided were in architectural format -Dimensions provided all necessary information to construct					
5- Door & Window Map	-Floorplan without dimensions or blocks was provided -Door schedule and window schedule provided -Tags used appropriately, placed neatly, & relate to schedules					
6- South Elevation	-Door and window blocks used throughout -Hatch patterns were correctly scaled -Material selections were realistic and appropriate -Architectural elements correct(soffit, corners, fascia,etc)					
7- East Elevation	-Door and window blocks used throughout -Hatch patterns were correctly scaled -Material selections were realistic and appropriate -Architectural elements correct(soffit, corners, fascia,etc)					
8- North Elevation	-Door and window blocks used throughout -Hatch patterns were correctly scaled -Material selections were realistic and appropriate -Architectural elements correct(soffit, corners, fascia,etc)					
9- West Elevation	-Door and window blocks used throughout -Hatch patterns were correctly scaled -Material selections were realistic and appropriate -Architectural elements correct(soffit, corners, fascia,etc)					
10- Landscape Plan	-Hardscape was functional and demonstrated thoughtfulness in aesthetics					
11- Door & Window Schedule	-Tags were used correctly -Contained all necessary information					
		8 = Excellent	6 = Good	4 = Approaching	2 = Minimally Evident	0 = Not present
A. Form	-Structure was attractive in exterior layout and -Provided harmony in relationships between public and private spaces -Provided harmony in relationships between interior and exterior spaces					
B. Flow/Function	-Architect provided a structure that one could move through sensibly and where all spaces were utilized properly -Provided spaces met the need(s) of the client as discussed in the pre-design meeting					
		16 = Excellent	12 = Good	8 = Approaching	4 = Minimally Evident	0 = Not present
C- Effort	-Architect maximized use of time -Architect utilized constructive criticism to inform plan changes -Architect demonstrated attention to detail and thoughtfulness in design					

Final Score _____

Earned Points _____/68
